DRAFT / PLAYTEST — Rules may change

Status: This entire rules section is a **DRAFT / PLAYTEST** document. Expect wording, costs, and timing to shift as Wave 1 locks. The baseline is a two-player fantasy kingdom trading card game with Weekend Land Escape's unique gold economy, fortifications, equipment upkeep, and Supply pressure.

1. Overview

Weekend Land Escape is a fantasy kingdom trading card game for **2 players** (multiplayer free-for-all and two-headed notes appear at the end of this chapter). Each player represents a warband fighting to hold territory, raise gold, raise walls, and cut the enemy down.

This PDF covers ~**64 cards**: Scrags, Ironfang, the **Dragon Wave 1 draft** (10 mythics / alts / support), fortifications, economy, equipment, lands, mana rocks, and Treasure components — plus **cut-out print sheets** at real TCG size.

Goal: Reduce your opponent to **0 life**. Both players begin at **20 life**. The first player to drop an opponent to 0 (or less) wins.

No dice required for printed play. Track life, gold, damage, and counters with Treasure tokens, spare counters, a scoresheet, or a phone. Combat math is power vs. toughness — no random rolls.

Multiplayer notes (optional): In free-for-all, each player still starts at 20 life; last player above 0 wins. Attacks target one opponent or their creatures as usual. Shared Treasure pile sits in the middle. Two-headed / team play: shared life total of 30 and shared gold pool per team is a solid playtest default.

2. Mana Marks (LOCKED)

Mana is produced by Lands and mana-producing Artifacts, and spent to cast spells and activate abilities. Weekend Land Escape uses six custom mana marks. Treat them as locked for Wave 1:

- **Bastion** (white / order) — defense, discipline, healing, and righteous steel.
- **Harbor** (blue / tempo) — draw, dig, bounce, and battlefield timing.
- **Mire** (black / removal) — attrition, taxes, and hard answers.
- **Forge** (red / aggression) — rush, burn-adjacent pressure, and warbands.
- **Wildwood** (green / ramp) — growth, mana acceleration, and big threats.
- **Quarry** (colorless / artifacts & forts) — structures, rocks, and walls.

Official Wave 1 mana marks reference sheet.

3. Card Types

Every permanent and spell belongs to one or more types. Wave 1 ships creatures (including dragon mythics), lands, fortifications, economy buildings, equipment, mana rocks, and treasure tokens. Instants and sorceries are designed into the rules but are not in the Wave 1 card set yet.

Lands (Basics + Hybrids). Lands produce mana. You may play **one land per turn** during a main phase (unless a card says otherwise). Basic lands tap for one mana of their mark. Hybrid lands tap for either listed mark (Crossroads Quarry is the special any-color/Quarry rare and enters tapped).

**Bastion Fields**

Basic Land — Bastion (white / order).

Creatures. Creatures have **power / toughness**. Power is the damage they deal in combat; toughness is their hit points. Creatures enter tapped only if a card says so; most cannot attack the turn they enter unless they have **Aggressive** (or a similar exemption). Dragon mythics are high-cost apex creatures — see §13.

**Warpaint Marauder**

1 Forge, 2/1. Ferocity: +1 power when attacking.

Instant / Sorcery (planned). Instants can be cast any time you have priority — including during combat and on an opponent's turn. Sorceries are cast only during your main phase when the stack is empty. *Wave 1 does not yet include Instants or Sorceries; treat them as planned types for later waves.*

Artifacts. Wave 1 artifacts are primarily **mana rocks** (tap for colored or Quarry mana) and **Equipment** (see below). Artifacts are usually colorless to cast unless their cost lists a colored mark. Relics such as **Dualheart Vessel** support dragon synergies.

Forge Heart

2 Forge → 1 Forge.

Fortifications. Structures use **DEFENSE** instead of power/toughness. When a fortification has taken damage equal to its DEFENSE, it is destroyed. Forts protect troops and economic buildings — walls reduce incoming pressure, towers shoot attackers, gates soak hits meant for markets. **Siege** creatures (see Dragon Wave) are especially good at punching through forts.

Earthen Berm

1 Quarry, DEF 3. +0/+1 to creatures; protects gold from Instant taxes.

Economy Fortifications. A subset of forts that produce **Income** (gold) during your upkeep. Richer buildings often have **UPKEEP** gold costs. Miss an upkeep and you typically forfeit that building's income for the turn (see individual cards). No per-soldier wages — economy is building-driven.

Camp Market

1 Bastion. Income +1, Upkeep 0, DEF 2.

Equipment. Pay the cast cost to put Equipment onto the battlefield unattached. Pay its **Equip** cost (often gold) to attach it to a creature you control. Some heavy pieces also demand Equipment **UPKEEP** each turn — pay it or unequip.

**Militia Spear**

1 Forge or 1 Gold; Equip 1 Gold → +1/+0.

Treasure tokens. Each Treasure represents **+1 gold**. They are shared table components, not deck cards. When you spend gold, return that many Treasures to the shared pile.

**Treasure Token — Card Size**

Recommended Wave 1 format. +1 Gold.

4. Zones

- **Library** — your shuffled deck, face down.
- **Hand** — private cards you can cast or play (lands).
- **Battlefield** — lands, creatures, forts, artifacts, and equipment in play.
- **Graveyard** — discarded, destroyed, and resolved spells (face up).
- **Exile** — removed from the game; only returns if a card says so.
- **Gold pile / Treasure pool** — shared components beside the board. Your personal gold is the Treasures in front of you.

5. Deck Construction (Draft Suggestion)

Wave 1 playtest default: **40–60 cards**. For a 40-card deck, aim for about **~24 lands** (scale proportionally for 60). Maximum **4 copies** of any non-basic card. **Basic lands are unlimited**. Gold/Treasure tokens are **not** deck cards — keep a shared pile of 20–40 tokens for the table.

Color discipline matters. Two-mark decks are the sweet spot for early playtests; splash a third only if your hybrid lands and mana rocks support it. Dragon mythics are late-game finishers — build ramp, gold engines, and tutors (e.g. Harbinger Whisker) before slamming a Colossus.

6. Setup

1. Shuffle your library.
2. Draw **7** cards.
3. Optional **mulligan**: shuffle your hand back, draw **6** (one free mull to 6 is the Wave 1 default; further mulls are playgroup choice).
4. Set life to **20**.
5. Set gold to **0** (no Treasures in front of you).
6. Place the shared Treasure pile beside the board.

7. Determine first player randomly; that player skips the first draw step (recommended playtest rule).

7. Turn Structure

Each turn proceeds through these steps in order. A fuller priority system arrives with Instants; for Wave 1 creature/fort play, resolve actions in turn order unless a card says otherwise.

Untap. Untap all permanents you control.

Upkeep. In this order (recommended):

- **Collect Income** from each Economy fortification you control (take that many Treasures from the pile).
- **Pay building UPKEEP** for each Economy fort that demands it. If you cannot (or choose not to), follow the card — typically you get no income from that building this turn, or it becomes inactive.
- **Pay Equipment UPKEEP** for equipped pieces that list one. If unpaid, unequip (Equipment stays on the battlefield unattached).
- **Optional Supply check:** If you control **5 or more creatures**, you may pay **1 gold**. If you don't, all your creatures get **-1/-0** until your next turn. There are **no per-soldier wages** — Supply is the only army-size tax.

Draw. Draw one card (except the first player on turn one).

Main Phase 1. Play a land (once per turn). Cast creatures, artifacts, fortifications, and (later) sorceries. Equip creatures. Activate abilities.

Combat. Declare attackers → declare blockers → damage. Fortification abilities may trigger or activate here (towers shoot, walls reduce damage, berms buff toughness). See §8.

Main Phase 2. Same options as Main Phase 1 (still only one land per turn total).

End / Cleanup. “Until end of turn” effects wear off. Discard down to maximum hand size **7** if you are over. Damage on creatures and forts wears off unless a card says it marks permanent damage.

8. Combat & Fortifications

Creatures deal combat damage equal to their **power**. A creature that has taken damage greater than or equal to its **toughness** is destroyed and goes to the graveyard. Multiple blockers assign damage as the attacker's controller chooses among the blocking creatures (Wave 1 default), unless a keyword says otherwise.

Fortifications have **DEFENSE** instead of P/T. Damage assigned to a fortification accumulates for the turn; when total damage ≥ DEFENSE, the fortification is destroyed. Many forts redirect or reduce damage that would hit you, your creatures, or your Markets.

Earthen Berm (1 Quarry, DEF 3) gives your creatures +0/+1 and protects gold from Instant-speed taxes once those cards exist — a cheap frontline berm for early economy. **Ballista Tower** (4 Forge + 1 Quarry, DEF 5) can shoot an attacker for 2 and grants economy forts +2 DEF, turning your markets into harder targets.

**Ballista Tower**

4 Forge + 1 Quarry, DEF 5. Shoot attacker for 2; econ forts +2 DEF.

Siege vs. forts: Creatures with **Siege** (notably Dragon Wave mythics) may assign combat damage to fortifications as though they were attacking them directly, or deal bonus damage to DEFENSE as printed. Walls still matter — but a Tidecoil Colossus or Platebound Warwyrn is built to crack them.

9. Gold Economy

Gold is the second resource alongside mana. Track it with **Treasure tokens** (+1 gold each). When you gain gold, take Treasures from the shared pile. When you spend gold, return that many Treasures to the pile.

Inflows: Economy fort Income during upkeep; enters-the-battlefield bursts (e.g. War Chest); other card effects.

Outflows: Cast costs that list gold; building UPKEEP; Equip costs; equipment UPKEEP; optional Supply payment; dragon tribute / mythic gold costs.

Gold does not untap or reset — unspent Treasures stay in front of you between turns. Managing upkeep vs. board presence is a core Wave 1 skill. Dragon casting costs often demand **4–8 gold** on top of heavy colored mana — plan markets and War Chests early.

10. Keywords

Brief Wave 1 definitions. Exact reminder text on cards always wins if wording differs during playtest.

Aggressive. This creature can attack the turn it enters the battlefield.

Armored. Prevent the first 1 damage that would be dealt to this creature each combat (or as printed).

Multi-Strike. This creature may assign combat damage as though it had an extra strike — typically deal damage to an additional blocker or split power across two targets as printed.

Slippery. Once per turn, this creature may dodge one blocker (that blocker is removed from combat with this creature).

Ferocity. Gets +1 power when attacking (or as printed).

Cover. Creatures behind this fortification (or as printed) gain a toughness or damage-prevention bonus.

Muster. When this enters, create a 1/1 token or pump this creature (choose as printed).

Redirect. May send damage that would hit this creature onto another Scrag you control.

Fury / Battle Cry. Limited-use combat pumps or team-wide attack bonuses; see card for once-per-game timing.

Dig. Look at the top cards of your library; put one into hand or as printed, rest on bottom.

Temper. May improve Equipment or Forge permanents — see Field Blacksmith.

Horde Standard. Tribal anthem / leadership effect for Orcs or listed allies.

Ranged / Ping. Deal a small amount of damage to a target without needing to enter combat.

War Blessing. Pump an Orc or deal direct damage — see Storm-Eye Channeler.

Siege. Excels vs. fortifications — may assign combat damage to forts / deal bonus DEFENSE damage as printed.

Crushing Tide. Ocean-apex pressure; often bounce or sweep after combat as printed on Tidecoil Colossus.

Discorporation. Transform / leave as an alternate form (e.g. Worldcoil Sovereign → cat form) as printed.

Vessel Bond. Control / synergy link between Ragbound Matriarch and Dualheart Vessel.

11. Card Format

Cards use a **landscape layout with a side panel** — art left/main, text panel right.

Physical cards target ~63 × 88 mm / 2.5 × 3.5 in (standard TCG). Because Wave 1 frames are landscape side-panel, **Part III cut-out sheets** print each card as a **3.5 in wide × 2.5 in tall** landscape slot (same physical size, rotated). Treasure tokens: use the **card-size** Treasure on cut sheets; square chips and coins are deluxe extras.

12. Worked Example Turn

You are on turn four. Life 18, gold 1 (one Treasure). You control **Forge Peak** and **Bastion Fields**, plus an **Earthen Berm** from last turn. Hand includes Camp Market, Warpaint Marauder, and Militia Spear.

Untap / Upkeep. Untap lands and Berm. No economy income yet. No equipment upkeep. You have 1 creature, so Supply does not apply.

Draw. You draw Ironfang Bruiser — fine, keep it for later.

Main Phase 1. Play your land for the turn — a second **Bastion Fields**. Tap one Bastion Fields to cast **Camp Market** (1 Bastion). Tap Forge Peak to cast **Warpaint Marauder** (1 Forge, Aggressive). Cast **Militia Spear** for 1 Forge (from a mana rock or a second Forge land you untapped) — or pay 1 gold if that is how you cast it — then **Equip** the Spear onto Marauder for 1 Gold, returning your Treasure to the pile. Marauder is effectively 3/1 when attacking (2/1 base, Ferocity +1 on attack, Spear +1/+0).

Combat. Declare Warpaint Marauder as an attacker (Aggressive lets it swing the turn it entered). Opponent declines to block. Marauder deals 3 damage; opponent drops from 20 to 17. Your Berm's +0/+1 kept a Scrag Raider alive earlier in the game — same idea next turn when you go wider.

Main Phase 2 / End. Nothing else. Next upkeep, Camp Market will Income +1 Treasure. Hold the line.

13. Dragon Wave 1 (Draft)

The **Dragon Wave 1** section is a draft mythic package with original Weekend Land Escape names. Costs sit at the top of the ladder: multi-mark mana plus significant gold, with **Tidecoil Colossus** as the apex.

- **Mythic costs.** Expect 4–8 gold plus 6–12 colored mana. Build economy before you can cast them.
- **Siege vs. forts.** Dragons with Siege (and equipment like Adamantine Drakeplate) are the answer to tall fort walls — they pressure DEFENSE hard.
- **Alts are mutually exclusive draft choices** for the same slot unless a card notes otherwise. Example: draft **Bleakcloud Devourer** or **Bleakcloud — Divide**, not both as separate Wave 1 locks for one deck slot. Same idea for Platebound Warwyrms vs. Platebound — Hordemaster.
- **Support pieces.** Harbinger Whisker tutors the ocean apex pair; Dualheart Vessel synergizes with Ragbound Matriarch; Drakeplate equips dragons for Siege.

Tidecoil Colossus

8 Harbor + 4 Mire + 8 Gold, 12/14. Amphibious ocean apex. Siege, Multi-Strike, Crushing Tide.

Mini example — late game. You have 8 gold, Harbor/Mire lands untapped, and Harbinger Whisker in play. Activate Whisker's tutor to fetch Tidecoil Colossus, cast it next turn after another Income cycle, then attack a Stone Curtain Wall with Siege. Multi-Strike and Crushing Tide finish the board once the wall falls.

DRAFT / PLAYTEST — Rules may change

Part II — Card Catalog (Reference)

All **64** Wave 1 cards (including Dragon Wave draft). Dense reference layout: up to **4 cards per page** (2×2 grid) with name and blurb under each. For print-and-cut physical cards, use **Part III**.

Unit: The Scrags

Fast, Forge-leaning goblinoids. Cheap aggression and tribal leadership — Raiders swarm early, Warlords lead the pack.

Scrag Raider — Evasive

1 Forge, 1/1. Slippery: dodge one blocker per turn.

Scrag Raider — Muster

1 Forge, 1/1. Muster: enter and make a 1/1 token or pump yourself.

Scrag Warlord — Command

3 mana, 2/2. Multi-Strike + Redirect damage onto another Scrag.

Scrag Warlord — Banner Lord

3 mana, 3/2. Other Scrags get +1/+0; draw if you control a Fortification.

Unit: Ironfang Wave 1

An orc warband built on the shared keyword **Aggressive** (can attack the turn it enters). Big leaders reward you for holding a Fortification.

Warpaint Marauder

1 Forge, 2/1. Ferocity: +1 power when attacking.

Ironfang Bruiser

2 Forge, 2/2. Aggressive baseline.

Ironfang Javeliner

2 Forge, 1/2. Ranged ping once per turn.

Storm-Eye Channeler

2 Forge + 2 Bastion, 2/3. War Blessing: pump an Orc or deal 2.

Unit: Ironfang Wave 1 (continued)

**Plateborn Shocktrooper**

4 Forge, 3/4. Armored + Multi-Strike.

**Many-Arrows Tactician**

3 Forge + 1 Harbor, 2/3. Dig; your Orcs have Aggressive.

**Ironfang War-Chief**

5 Forge + 1 Gold, 4/5. Fury + once-per-game Battle Cry.

**Ironfang Battle-Matron**

5 Forge + 1 Gold, 3/5. Horde Standard; draw on Fortification.

Unit: Dragon Wave 1 (Draft)

Legendary dragon mythics at the very top of the cost ladder — multi-mark mana plus heavy gold. Alternate versions and support pieces are included. Alternates are either/or choices for the same slot.

Tidecoil Colossus

8 Harbor + 4 Mire + 8 Gold, 12/14. Amphibious ocean apex. Siege, Multi-Strike, Crushing Tide.

Worldcoil Sovereign

6 Harbor + 4 Mire + 2 Quarry + 8 Gold, 10/16. Gold tribute; Discorporation into cat form.

Harbinger Whisker

2 Harbor + 1 Mire + 1 Gold, 1/3. Tutor for Tidecoil Colossus or Worldcoil Sovereign.

Ragbound Matriarch

5 Mire + 3 Bastion + 2 Quarry + 6 Gold, 9/12. Vessel Bond control undead queen.

Unit: Dragon Wave 1 (Draft) (continued)

**Dualheart Vessel**

3 Mire + 1 Quarry + 3 Gold. Relic: control / rejuvenation synergy with Matriarch.

**Bleakcloud Devourer**

6 Mire + 3 Forge + 5 Gold, 8/11. Fear / blight mythic.

**Bleakcloud — Divide**

Same cost. Splits into six Fears spawn tokens then returns.

**Platebound Warwurm**

5 Forge + 2 Bastion + 1 Quarry + 4 Gold, 9/11. Armored Siege, Adamantine Hide, Burning Breath, Battle Roar.

Unit: Dragon Wave 1 (Draft) (continued)

**Platebound — Hordemaster**

Same cost, 8/12. Enters with Horde Armsmen tokens; Siege Support / Overrun.

**Adamantine Drakeplate**

2 Forge + 1 Quarry + 3 Gold; Equip 2. +0/+3 Armored; Dragons also get Siege; upkeep 1 gold.

Unit: Fortifications (Basic to Mid)

Structures use DEFENSE instead of power/toughness. They shield your troops and your economic expansions — walls reduce pressure, towers shoot attackers, gates soak hits meant for markets.

Earthen Berm

1 Quarry, DEF 3. +0/+1 to creatures; protects gold from Instant taxes.

Sandbag Bunker

2 Quarry, DEF 4. Cover + Armored.

Wooden Palisade

2 Forge, DEF 4. Attackers deal 1 less; shields Markets from sorceries.

Timber Watchtower

3 Forge, DEF 4. Aggressive +1 power; peek opponent top card.

Unit: Fortifications (Basic to Mid) (continued)

**Stone Curtain Wall**

3 Quarry + 1 Gold, DEF 6. +0/+2; first combat damage to you -1.

**Market Gate**

3 Bastion + 1 Gold, DEF 5. +1 gold/turn; soaks hits meant for economy.

**Ballista Tower**

4 Forge + 1 Quarry, DEF 5. Shoot attacker for 2; econ forts +2 DEF.

**Arrow-Slit Keep**

4 Bastion + 1 Quarry, DEF 6. Ping two attackers; survivors +0/+1.

Unit: Economy Expansions

Gold comes IN each turn from buildings. Richer buildings have UPKEEP. No per-soldier wages.

Camp Market

1 Bastion. Income +1, Upkeep 0, DEF 2.

Field Blacksmith

2 Forge + 1 Gold. Income +1; Temper; Forge discount.

Silversmith Hall

3 Bastion + 2 Gold. Income +2, Upkeep 1; Artifact bonus gold.

Stone Quarry

3 Quarry + 1 Gold. Income +1; free Quarry mana; cheaper Walls.

Unit: Economy Expansions (continued)

Jewel Mine

4 Mire + 3 Gold. Income +3, Upkeep 2 (miss = no income).

War Chest

2 Bastion + 2 Gold. Burst +3 on enter; sinks 2 if destroyed.

Unit: Equipment Ladder

Pay to play, then pay again to Equip onto a creature. Big pieces can have upkeep. Equipment is your main gold OUTFLOW — without taxing every soldier.

Militia Spear

1 Forge or 1 Gold; Equip 1 Gold → +1/+0.

Hide Jack

1 Bastion; Equip 1 Gold → +0/+1.

Iron Longsword

2 Forge + 1 Gold; Equip 1 Gold → +2/+0.

Chain Hauberk

2 Bastion + 2 Gold; Equip 1 Gold → +0/+2 and Armored.

Unit: Equipment Ladder (continued)**Captain's Banner**

2 Forge + 1 Bastion + 2 Gold; Equip 2 Gold → +1/+1; same-type allies +1/+0.

**Runed Plate**

3 Bastion + 1 Quarry + 3 Gold; Equip 2 Gold → +1/+3; Instant immunity; upkeep 1.

Unit: Basic Lands

One land for each mana mark. Tap for one mana of that mark.

Bastion Fields

Basic Land — Bastion (white / order).

Harbor Coast

Basic Land — Harbor (blue / tempo).

Mire Hollow

Basic Land — Mire (black / removal).

Forge Peak

Basic Land — Forge (red / aggression).

Unit: Basic Lands (continued)

Wildwood Grove

Basic Land — Wildwood (green / ramp).

Quarry Stone

Basic Land — Quarry (colorless / artifacts & forts).

Unit: Hybrid Lands

Ally duals plus Crossroads Quarry. Tap for either listed mark (Crossroads Quarry: any color or Quarry, enters tapped).

Sunlit Harbor
Bastion / Harbor.

Fogwharf
Harbor / Mire.

Cinder Mire
Mire / Forge.

Ashwood Ridge
Forge / Wildwood.

Unit: Hybrid Lands (continued)**Gleaming Wilds**

Wildwood / Bastion.

**Crossroads Quarry**

Any color or Quarry; enters tapped; Rare.

Unit: Mana-Producing Artifacts

Mana rocks for color fixing and acceleration.

Quarry Keystone

1 Quarry → tap for 1 Quarry.

Bastion Sunstone

2 Bastion → 1 Bastion.

Harbor Tideglobe

2 Harbor → 1 Harbor.

Mire Coin Relic

2 Mire → 1 Mire.

Unit: Mana-Producing Artifacts (continued)

Forge Heart
2 Forge → 1 Forge.

Wildwood Fetish
2 Wildwood → 1 Wildwood.

Mana Prism
2 Quarry → 1 mana of any color (Uncommon).

Unit: Treasure Tokens

Each Treasure = +1 Gold. Spend it, then return it to the shared pile. The card-size token is the Wave 1 standard (it matches the cards and shares sleeves); square chips and round coins are deluxe options.

Treasure Token — Card Size
Recommended Wave 1 format. +1 Gold.

Treasure Chip — Square
~40×40 mm table chip. +1 Gold.

Treasure Coin — Round
~38 mm coin. +1 Gold. Deluxe later.

Part III — Cut-Out Print Sheets

DRAFT / PLAYTEST — Rules may change

Print these sheets at **actual size** (100% / no “fit to page”). Each card slot is exactly **3.5 × 2.5 inches** (landscape orientation of the standard 63×88 mm TCG size) to match Wave 1’s landscape side-panel frames. Dashed lines are cut guides. Layout: **2 columns × 4 rows = 8 cards per page** where a section fills the grid.

- Include all playable units: creatures, dragons, forts, economy, equipment, lands, artifacts.
- Treasure: **card-size only** on cut sheets (square/coin skipped).
- Optional **card-back** pages follow each filled sheet block so you can duplex if your printer supports it.

OPTION A — EVASIVE

SET SYMBOL:
CROSSED ARROWS

SCRAG RAIDER

1

Muster

When this enters play, create a 1/1 Scrag token OR put a +1/+0 counter on this creature.

"Bring friends. Bring steel."

OPTION B — MUSTER

SCRAG WARLORD

3

CREATURE —
SCRAG LEADER

- Multi-Strike** — Once per your turn, this may attack an additional time.
